Health and Safety on Site

As a responsible employer we take very seriously our obligations under the Health & Safety at Work act, that is why we are signed up to the 'MUTAmArq' accreditation scheme.

As our client **you also have obligations under the act**, and you **must** provide our workers with a safe environment whilst they are on your site. To help you with this you should complete and return this form to our offices **14 days prior to commencement of work**.

Underground Services

It is essential that you check if there are any services such as water, electricity or gas less than a minimum of 1 metre below the surface of the area where our crew(s) will be working.

NO, there are no underground services less than 1m below the surface

YES, underground services are present

If you ticked "Yes" then you must obtain appropriate advice from the service company concerned and advise us of their location prior to commencement of work.

Surface Type

Grass Tarmac Concrete Other Specify.....

If tarmac, concrete or paving etc. do we have permission from the site owners for the necessary ground fixings?

Workers' Welfare

As a minimum we are obliged to provide toilet and hand washing facilities on or nearby the site.

Please confirm availability: YES NO

(If no we will have to provide these facilities at additional cost)

We comply with the MUTAmArq Codes of Practice
